WORLD SAILING INCLUSION CHAMPIONSHIPS

*30th November – 8th December 2025
Mussanah, Sultanate of Oman*

WHO WE ARE

Oman 2025
World Sailing
Inclusion
Championships
عُمان
OMAN

Powered By
 Oman Sailing

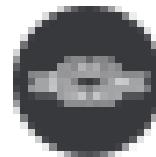

Our Vision

Create monumental experiences powered by the sea, so that together we inspire excellence and contribute to the sustainable prosperity of the nation.

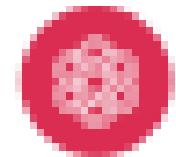

Our Mission

Deliver the assigned mission to rekindle Oman's maritime eminence, promote the Sultanate around the world through sailing and provide long-term learning opportunities for the youth.

Our Values:

التميز
EXCELLENCE

روح الفريق
TEAM SPIRIT

الالتزام
COMMITMENT

الثقة
TRUST

Total Employees: 166 (37 Female / 129 Male)

The Sultanate of Oman's beautiful natural landscape is the foundation on which all Oman Sail activities take place.

Oman Sail and its brand SeaOman works closely with stakeholders in order to minimise where possible its carbon footprint and ensure the environmental health of the nation is embedded in daily operations and every event we deliver.

For the delivery of World Sailing Inclusion Championships, Oman Sail can showcase how it is contributing to:

1

World Sailing
Sustainability Agenda
2030

2

International
Olympic Committee's
Sustainability Strategy

3

United Nations (UN) 2030
Agenda for Sustainable
Development

4

ISO 20121 guidelines:
A specification for
sustainable events

5

Oman's Vision 2040 -
environmental national
priority (1 of 12)

OVERVIEW OF 2025 WORLD SAILING INCLUSION CHAMPIONSHIPS

Oman 2025
World Sailing
Inclusion
Championships

Powered By

Dates: 30th November– 8th December 2025

1st

Edition of World Sailing Inclusion Championships in Oman

Participants: 127 Sailors

Nationalities: 28 Nations: Oman, UAE, KSA, Australia, United States, Switzerland, Uruguay, Norway, Italy, Sweden, Poland, India, Spain, Canada, Great Britain, Portugal, Germany, Hong Kong, Austria, Chile, Trinidad and Tobago, Timor-Leste, France, Czech Republic, Korea, Indonesia, Greece, and Japan

Boat Classes: RS Venture, ILCA6, Hansa 303, FarEast28

Event Location:

Barceló Mussanah Resort

(approx. 100km north of Muscat International Airport)

- Location of one of Oman Sail's three Sailing Schools, an **Asian** Sailing Federation (ASAF) Category A High Performance **Centre and** base for our National Sailing Teams.
- Oman Sail manages the marina facilities, offering 54 quality berths, dockside support and first-class facilities including boat cleaning and assistance upon arrival.
- Accommodation for competitors, coaches, officials and other staff involved in the regatta.
- Restaurant and recreation facilities.
- Media Centre with special conference facilities, studios, internet facilities, etc.
- Ample storage space/areas for competitors, coaches and equipment providers.
- Fully staffed workshop with facilities for sanding, spray, fiberglass and engine repairs.

1

Eliminate Single-Use Water Bottles and Provide Water Refill Stations

Achieved:

- All sailors were requested prior to the event to bring their own reusable water bottles or purchase a reusable water bottle from a shop at the main venue.
 - Oman Sail brand SeaOman sold **7 reusable water bottles** in our shop during the event.
- Oman Sail, supported by **Tanuf** the event's official water partner, provided **6 refill stations** across the venue, including on the pontoons, ensuring easy and continuous access to drinking water. **110** 5-gallon water bottles were used throughout the event.
- Water for VIP guests during the open and closing ceremonies was provided in glass bottles.

1

Eliminate Single-Use Water Bottles and Provide Water Refill Stations Continued ...

The results from the event Sustainability Survey (completed by sailors, coaches and staff) demonstrated a strong level of awareness, regarding the **importance of using and traveling** with their reusable water bottle, to reduce the use of single-use plastic:

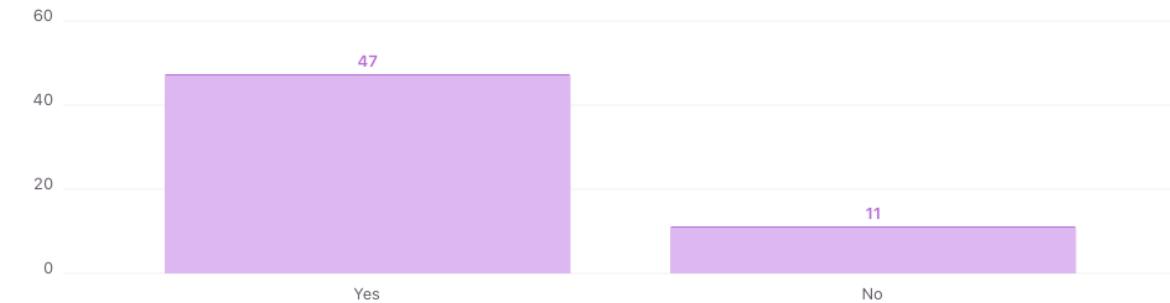

Q 13 Do you daily use a reusable water bottle to reduce single-use plastic?

70 out of 72 people answered this question.

Q 14 If yes, are you using your reusable water bottle at the event?

58 out of 72 people answered this question.

ELIMINATION OF SINGLE USE ITEMS

2

Eliminate Plastic Straws

Achieved:

- No single-use plastic straws were distributed or brought by Oman Sail for this event.
- Straws available at the **main venue** of the event (Barcelo Mussanah Resort) were sugarcane-based, 100% biodegradable, offering a fully compostable and environmentally friendly alternative.

ELIMINATION OF SINGLE USE ITEMS

Oman 2025
World Sailing

Championships

Powered By
 Oman SAIL

4

Serve Food with Plastic-Free Dinnerware

Achieved:

- Meals for sailors, coaches (optional to purchase via Oman Sail, at an additional price*), and event staff were provided by **Mahfoodh Modern Restaurant**, offering options suitable for both vegetarian and non-vegetarian participants. Containers were made from cardboard and serving utensils were wooden.
- For participants and guests staying at the main venue **Barceló Mussanah Resort**, the hotel served meals using reusable glass plates and stainless-steel cutlery, ensuring minimal waste throughout the event.

Notes:

- *sailors and coaches could opt in to purchase lunch via Oman Sail, some sailors and staff brought food outside of the venue, this food included single use plastic packaging.*
- originally all participants, were due to stay at Barcelo Mussanah Resort. As the event was hosted at this venue, we have not audited the Al Sawadi Beach Resort.*

5

Award Practical Items or Use a Perpetual or Trophy

Achieved:

To minimize the use of plastic, all trophies and medals were produced from durable, long-lasting materials.

The trophies were made from glass and **high-quality gypsum** (generally considered environmentally friendly due to its natural origin, low-energy production, recyclability, and role in energy-efficient buildings, offering a lower carbon footprint than traditional materials like concrete and brick etc.), and **the medals** were crafted from metal.

Publicize Your Sustainability Efforts

Achieved: sustainability messaging was delivered across multiple platforms, ensuring strong visibility and continuous engagement throughout the championship. This was achieved through:

A. World Sailing Inclusion Championships 2025 E-booklet: Sustainability Section

Before the event started, we promoted our intended sustainability efforts for the event and issued the sustainability survey (completed only by 72 participants).

- Help Us Protect Our Environment**
 - Bring or Buy a Reusable Water Bottle:** Free 5-gallon refill stations will be available around the Sailing School. Reusable bottles can also be purchased on site.
 - Skip Single-Use Plastic:** If you like using straws, bring your reusable one or choose bamboo alternatives available at Barceló Musanah Resort.
 - Use the Recycling & Food Waste Bins:** Please place your waste in the labelled bins around the event to help us divert as much material as possible from landfill.
 - Respect World Sailing's Clean Seas Rule:** Under RRS Rule 47 (Trash Disposal), sailors and support team must not intentionally put any trash in the water. This aligns with international maritime law and helps protect our oceans. Thank you for helping us keep the sea clean.

Oman's Unique Marine Life – Please Protect It

Oman is one of the world's most important homes for sea turtles, with five of the seven global species using its coastline for nesting and migration.

During your stay, you may have the chance to:

- Visit the Daymaniyat Islands Nature Reserve famous for green and hawksbill turtles, rays, famous eels, vibrant coral reefs and pristine waters.
- Spot the resident green turtles in the Barceló Musanah marina. These animals are protected, so please admire them respectfully and never touch or disturb turtles or coral. A visit to the Daymaniyat Islands may be available during the tourism day or for those extending their stay for those who wish to explore responsibly.

Join Our Free Sustainability Activities

Monday 1 December
08:00 – 08:30 | Food Waste Awareness Session & Bio-Digester Tour
- Meet at the Sailing School Classroom
- 10-15 sailors per session (options to repeat if high interest)
- Classroom briefing & short walk to the Bio-Digester
- Learn how food waste from the venue, including the event, is transformed into eco-soil used onsite.

Tuesday 2 December
09:30 – 12:30 | Climate FRESH Workshop
- Meeting point: Outside the Meet & Greet Meeting Room
- 20 participants
- An interactive, room-based workshop exploring the causes and impacts of climate change through a science-based card activity.
- Includes: climate mapping, creativity phase, emotions discussion, solutions.

Note: access for wheelchair users, illustrated here, the sand is compact.

C. Clean Regatta: The Clean Regatta logo was featured online and on event signage. We also captured in the Sustainability survey the sailors' awareness of the Clean Regatta programme:

17 Have you previously participated in a Clean Regatta event registered with Sailors for the Sea?

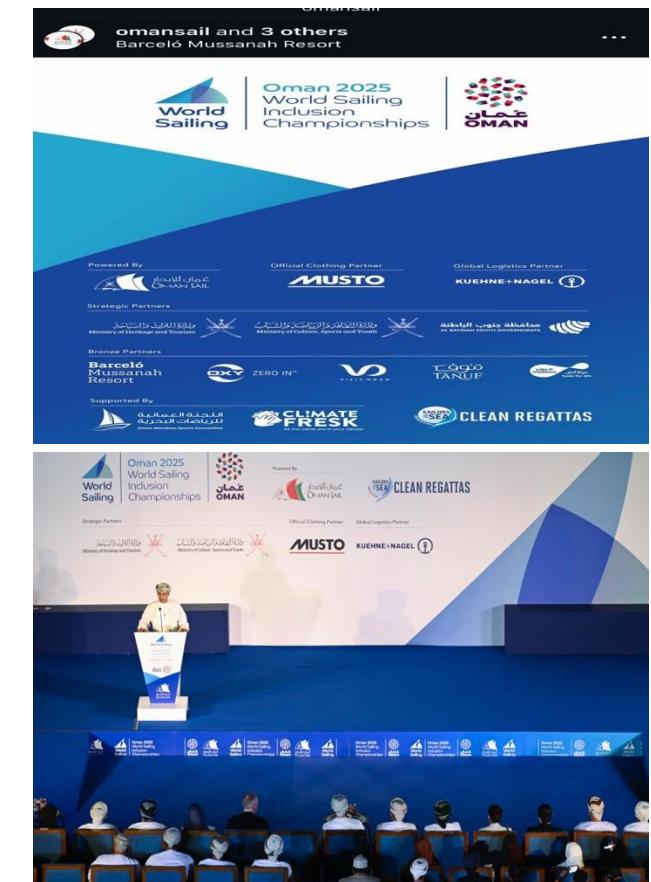

72 out of 72 people answered this question.

D. Closing Ceremony, CEO, Oman Sail Speech (8th December 2025):

from our CEO reinforced our commitment and aligned all stakeholders with the event's environmental objectives:

"Off the water, multiple initiatives echoed the championship's pillars of inclusion, community engagement, and environmental sustainability, most prominently a beach-cleaning campaign involving sailors and volunteers from various nations."

E. Press Releases: incorporated sustainability messaging, examples are included below:

“As part of the championship’s strong commitment to environmental sustainability, Oman Sail organised a comprehensive programme of green initiatives to run for the duration of the event.

Beginning with a beach-cleaning campaign in Mussanah, where a team of 91 volunteers from Oman Sail, stakeholders and supporters, and Barceló Mussanah Resort joined forces to remove 106 bags of waste, mostly single- use plastics and discarded fishing equipment, from the beach - as part of efforts to highlight the importance of protecting the environment and reaffirm Oman Sail’s commitment to sustainable sailing, recycling, and waste reduction.

Additional sustainability activities included a food-waste awareness session and a guided bio-digester tour where participants learned how food waste from the venue - including waste generated during the event - is converted into eco-soil used onsite.

A Climate Fresk workshop further inspired athletes and teams through an interactive, science-based card activity designed to deepen understanding of the causes and impacts of climate change.

Together, these initiatives reinforced the championship’s vision of delivering a socially and environmentally responsible global sporting event”.

"We're accustomed to seeing awareness and environmental initiatives accompanying each tournament you organize, such as clean-up campaigns and promoting the concept of marine conservation. What are some of the key events you plan to hold during this tournament?

In line with Oman Sail's commitment to environmental principles and sustainability, the championship will be organized according to Clean Regatta standards and will be accompanied by a range of environmental and community initiatives aimed at promoting sustainability and protecting the marine environment. These initiatives include reducing the use of single-use plastics, organizing beach clean-up campaigns, distributing reusable water bottles, and implementing awareness programs in collaboration with Sailors for the Sea Powered by Oceana. Additionally, there will be guided tours to introduce participants to authentic Omani culture and the rich heritage of the Sultanate of Oman, reflecting the values of hospitality and environmental responsibility for which Oman is known".

7

Involve Local Organizations

Achieved: As part of our commitment to community engagement, we ensured that a wide range of local organizations, businesses, and community figures were actively involved throughout the championship. This collaboration strengthened the event's impact and reinforced shared sustainability values. Our efforts included:

- **Barceló Mussanah Resort:** the main accommodation and venue partner. Barceló provided wooden room keys, bamboo toiletries, and use approximately 65% locally-made products, that greatly contributed to the event's environmental vision. In addition, the resort encouraged its own staff to join the beach clean-up activity, which added significant value to our collective efforts.
- **Al Sawadi Beach Resort:** the secondary accommodation for participants.
- **Tanuf Water:** served as the official water sponsor, providing the requested 5-gallon refillable bottles for the venue and glass water bottles for VIPs and guests.

7

Involve Local Organizations Continued...

- **Mahfoodh Restaurant:** a local small business from the Musanah area, provided daily meals for sailors, coaches, and organisers. We requested no single use plastic and cardboard alternatives were provided for the event.
- **Diamond Business Shield:** the supplier of the event's commemorative gifts, collaborated with Oman Sail to create unique, meaningful items that avoided the use of plastic.
- **Opening & Closing Ceremonies:** welcomed numerous VIPs and community figures from the surrounding area. Traditional Omani Halwa was provided by a local hospitality company, adding an authentic cultural touch while supporting local businesses.

7

Involve Local Organizations Continued...

- **Climate Fresk**: is a global scientific and highly engaging workshop, that empowers participants to understand the causes and consequences of climate change, drawing from IPCC reports. Oman Sail partnered with Oman's Climate Fresk team, led by **Aisha Al Balushi**, who was joined by local volunteers to deliver an interactive workshop for the sailors during the championship.
- **Al Amal Centre for Rehabilitation and Physiotherapy**: Generously supported the championship by volunteering **4 therapists** from their professional team, who provided on-site assistance and care throughout the event. Their contribution was entirely voluntary and played an important role in supporting participants and ensuring everyone was able to take part safely and comfortably.

7

Involve Local Organizations Continued...

- **SMEs Village:** 31 small and medium local enterprises showcased a diverse range of products from pottery, candles, and handicrafts to floral arrangements and food. This space helped promote local talent and provided economic support to small businesses.
- **Disability Awareness Session:** was delivered as part of the championship, aiming to promote inclusion, accessibility, and community engagement. The session was attended by **36 participants from 14 organisations***. The session encouraged participating organisations to adopt more inclusive practices and highlighted the importance of integrating persons with disabilities into sports and community initiatives.

*including: Al Wafa Centre – Al Suwaiq, South Al Batinah Directorate of Heritage and Tourism, Atikah School, Rustaq Directorate of Education, Al Amal Centre for Rehabilitation and Physiotherapy, Kaab bin Suroor School, Al Wafa Centre – Rustaq, Business Administration representatives, the Small and Medium Enterprises Development Authority (Riyada), Medical City, Oman Association for the Disabled – Mussanah, Sail Free and Oman Sail).

Involve Local Organizations Continued...

- **Ministry of Heritage and Tourism:** Contributing to destination promotion and supporting sustainable tourism initiatives linked to the event. During the Opening Ceremony handed out free re-usable bags to participants.
- **Ministry of Culture, Sports and Youth:** Supporting the development of sport and inclusive participation at national level.
- **Ministry of Social Development:** Reinforcing social inclusion and community wellbeing initiatives.
- **Oman School Sports Federation:** Supporting youth engagement and grassroots sport development.
- **Oman Maritime Sports Committee:** Supporting marine sport governance and coordination.
- **Visit Oman:** Promoting the Sultanate as a sustainable and inclusive sporting destination.

8

Post Educational and Reusable Signage

Partly Achieved: Whilst several awareness materials were successfully delivered in digital formats, Oman Sail were unable to fully meet the requirement for reusable signage. **Numerous flags** were produced to brand the event.

However, all flags have been cleaned and stored for a recycling project in 2026, with a local SME, Handicrafts House, that have identified the flags can be repurposed to store and sell frankincense (luban), creating sustainable income opportunities for locals.

Further information on this exciting collaboration to follow in 2026!

Post Educational and Reusable Signage Continued...

- **Focus on Digital Educational Material:** Most of the educational content was delivered through digital formats, including WhatsApp communication groups, QR codes distributed across the venue, and online sustainability reminders. This approach reduced printing needs and allowed us to share real-time updates with all participants.

- **Permanent Signage:** Permanent signs available at the hotel. Such as restroom signs, directional signage, and general facility markers were utilized as part of the venue's existing infrastructure. These signs were provided by the hotel itself rather than created specifically for the championship.

9

Serve Local Food or Source Seafood Sustainability

Achieved: food provided by Barcelo Mussanah Resort or Oman Sail was sourced locally. This ICV approach supported nearby suppliers, reduced transportation-related emissions, and guaranteed freshness throughout the event. Barcelo efforts included:

- **Local Ingredients and Fresh Produce:** vegetables, fruits, meats, poultry, and seafood were sourced from within Oman. The seafood menu included several varieties of fresh fish delivered directly by fishermen from the Mussanah area.
- **Daily Fresh Bread Supply:** from Sohar Beach Bakery, which provided freshly baked bread every morning.
- **Variety of Meals for All Diets:** A wide selection of dishes was available daily, catering to both vegetarian and non-vegetarian diets to accommodate the diverse needs of participants.
- **Traditional Omani Halwa:** During both the opening and closing ceremonies, Murtafaat Jama, a local Omani business, supplied traditional Omani Halwa, adding an authentic cultural experience while supporting a local enterprise.

OMAN SAIL

10 Organize a Green Team

Achieved: In 2021, Oman Sail launched its Green Committee, led by Corporate Affairs, to drive sustainability initiatives and engage staff through various projects and events throughout the year. In December 2021, eight staff members were trained by the Environment Society of Oman (ESO) through a "Train the Trainer" program, enabling them to deliver environmental awareness training in both English and Arabic to Oman Sail staff and sailors across our three Sailing Schools. Annually, with sponsor support, environmental awareness training and sustainable activities have been integrated into our community-led sailing and team-building programmes.

In addition, SeaOman, a brand under Oman Sail, offers recreational diving, yacht charters, and watersports. It is a PADI 5* Instructor Development Centre at Mussanah and Al Mouj, Muscat, a Green Fins Digital member and progressing towards PADI Eco Centre status. Oman Sail's Green Committee, led by Debbie and Asia from Corporate Affairs, tries to align with the global focus on Environmental, Social, and Governance, Circular Economy, and In-Country Value. Oman Sail is committed to driving positive environmental change, both internally and externally, with a strong social license to operate.

Organise a Green Team Continued...

Key Green Members:

Feras Asqul: Event Operational Manager & helped drive the Clean Regatta Toolkit throughout the planning and delivery.

Debbie Richardson & Asia Al Dahmani: Embedded the Clean Regatta approach into the bid, operational plans and delivery. The constant reminder to staff and sailors to think “green” for this event.

Fatma Jamal & Buthaina Al Braiki: Procurement leads, managing being green vs keeping costs minimum. We even procured recycled cable ties as per the contract with Word Sailing.

Maitha Al Balushi, Fatma Al Zadjali & Kholoud Al Sheriyani: Delivered the Food Composting Tour, remind the sailors to complete the survey during registration and promoted the OceanR products in the SeaOman shop.

Kholoud Al Said: Ensured the Clean Regatta logo was added to digital artwork - social media posts etc.

Maryam Al Jadidi: Project Manager, with a limited budget and demands of several stakeholders helped embed the Clean Regatta toolkit and was an advocate for staff to think “green” across the event.

Dawood Al Adhoobi & Badar Al Abri: Managed event communications (press and social) & photography.

Moayed Al Busaidi: Business Development lead for sponsorship and taking clients on a journey to be sustainable whilst balancing securing revenue or Value in Kind for the event.

RESPONSIBLE WASTE MANAGEMENT

Oman 2025
World Sailing

Championships

Powered By
 Oman SAIL

11

Ensure Proper Waste Bin Placement and Signage

Achieved: To support proper waste management, we implemented a clearly segmented waste disposal system across the event venue.

Each bin consisted of five separate compartments, allowing participants to sort their waste accurately and responsibly.

These bins were placed in several key areas throughout the championship zone to ensure easy access for sailors, coaches, staff, and visitors.

Barcelo Mussanah Resort used their own bins for collection of food waste in key eating areas across the hotel. Food waste is repurposed for composting, helping reduce overall landfill waste.

RESPONSIBLE WASTE MANAGEMENT

Oman 2025
World Sailing
Inclusion
Championships

Powered By
 Oman SAIL

12

Divert Food Waste from Landfill

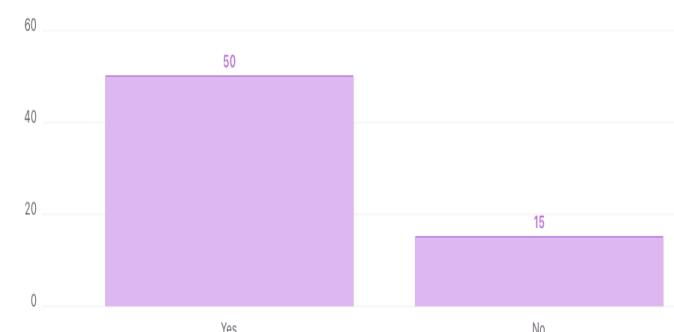

Achieved: through collaboration with our venue partner, Barceló Mussanah Resort. The resort operates a food composting system provided by **Ecobia**, which converts food waste into organic compost.

A brief presentation and site visit was conducted on **Monday 1st December 2025** to observe and document Barceló Mussanah Resort's food waste management system, including the on-site food composter.

Interestingly **50% of participants** said that they collect food waste for composting in their home country.

Q 16 Do you collect food waste at home for composting?

65 out of 72 people answered this question.

RESPONSIBLE WASTE MANAGEMENT

Oman 2025
World Sailing
Inclusion
Championships

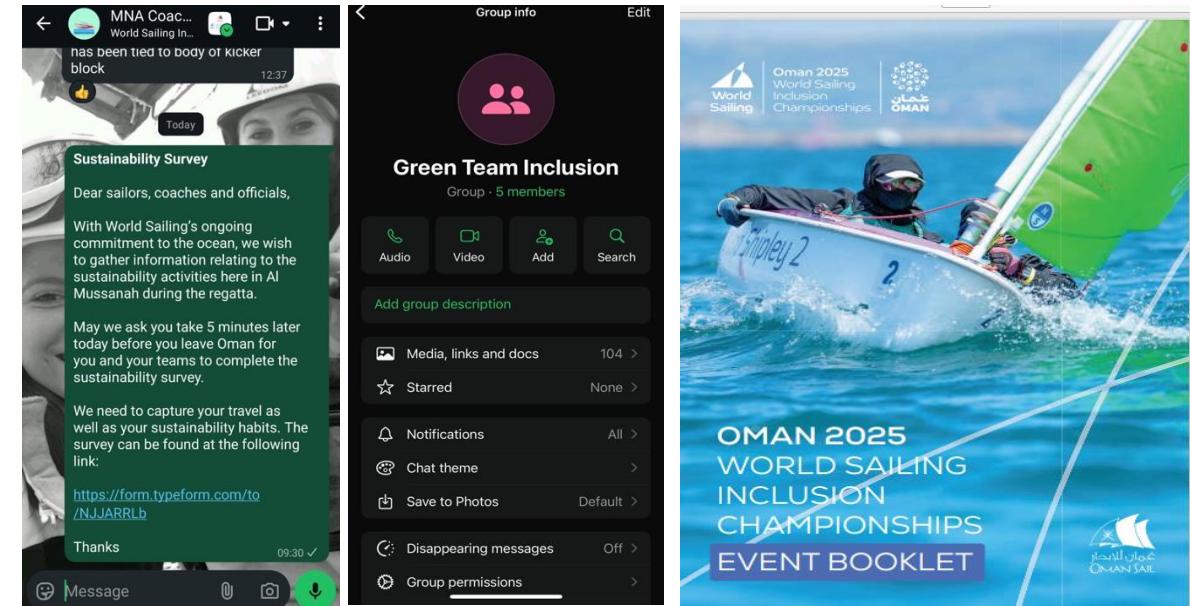

Powered By
 Oman SAIL

13

Use Paperless Event Management

Achieved: by minimizing the use of printed materials throughout the championship. Most communication, educational content, and surveys were shared through digital platforms, including WhatsApp groups, QR codes, and online forms. We also create an e-booklet for the participants to make sure that they have all the information that they might need. This approach significantly reduced paper consumption while ensuring effective and timely communication with all participants.

Increase Awareness of Wildlife and Habitat Protection Continued...

As part of **Tourism Day** (3 December), 12 participants visited the **Daymaniyat Islands**, a local protected nature reserve renowned for its pristine turquoise waters, rich coral reefs, and its importance as a nesting site for endangered sea turtles (hawksbill and green turtles) as well as migratory birds.

 **THE GREEN FINS ICONS**
PROTECT CORAL REEFS BY FOLLOWING THESE ENVIRONMENTAL TIPS

During the experience, the SeaOman team briefed sailors on being a [digital Green Fins](#) member and highlighted the **Code of Conduct**, outlining the key dos and don'ts to ensure responsible and environmentally sensitive snorkelling.

Increase Awareness of Wildlife and Habitat Protection Continued...

The SeaOman Shop in Mussanah supported sustainability messaging by selling reef friendly suncream, reusable water bottles and recycled **rashvests** produced by OceanR. During the event, **7 reusable water bottles, 3 recycled rashvests and 3 reef friendly suncreams** were sold, encouraging responsible consumption and long-term reuse.

17

Offer Vegetarian or Vegan Alternatives

Achieved: food and beverage options at Barceló Mussanah Resort were inclusive and suitable for both vegetarian and non-vegetarian participants. A wide variety of meal choices was provided to accommodate different dietary preferences, such as soups, full meals, light bites, salads, beverages (including soft drinks and juices), as well as desserts. This variety ensured that all participants were well catered for throughout the championship.

Promote Alternative Transportation

Not Fully Achieved: Alternative transport options such as electric or biofuel-powered buses and trains are not available in Oman. Measures were taken to reduce transportation-related impact where possible:

- Sailors, coaches, and staff primarily used event buses or own cars.
- World Sailing and Oman Sail staff and approx. half of the total competing sailors and coaches stayed at the main event hotel (Barcelo) within walking distance of the regatta.
- The remaining sailors, coaches, media stayed at the Al Sawadi Resort (40 min drive each way to the event).
 - **11** shuttle buses were hired to transport participants during the championship, between the airport and the 2 main hotels (Al Sawadi and Barceló Mussanah Resort) and used for the Tourism Day.
 - **Total of 64** trips in total.

Majority of Oman Sail event staff commuted from their local residences and were encouraged to carpool, this approach was widely adopted.

Reduce Day-of Event Emissions Continued...

As part of the championship experience, a **VIP guest dhow boat** was organised on one afternoon, to allow invited guests to observe the races firsthand and engage more closely with the sailing community. While the activity enhanced engagement and awareness, it is acknowledged that the dhow operated using a **diesel engine**, which resulted in adding further to the event's carbon emissions.

Note: Total approx. estimate of carbon footprint of the event ongoing and will be shared with World Sailing in January 2026 (this includes sailors/coaches travel to Oman, trucks used to transport boats for the championship from Saudi, fuel used for race management boats, main hotel venue energy and waste consumption etc).

Inspire Future Action

Achieved: the primary legacy of the World Sailing Inclusion Championships was delivering **accessible, inclusive sailing for all**. From a Clean Regatta perspective, the **Climate Fresk workshop** proved the most impactful sustainability activity. Sailors shared experiences from their home countries, enabling meaningful cross-cultural dialogue, pitched appropriately for adult participants. The workshop left a strong impression and demonstrated clear value for future events.

Recommendation: World Sailing and Sailors for the Sea explore integrating local Climate Fresk workshops into future regattas.

Inspire Future Action Continued...

Beyond the Clean Regatta:

- The World Sailing Inclusion Championships set a **new global benchmark for inclusive sailing**. The event celebrated ability and whilst not an environmental initiative, the introduction of **floating wheelchairs** by Oman Sail, with Social Investment funding from the Oman Tourism Development Company (OMRAN Group) enabled participants with physical disabilities to safely access and enjoy the sea in Muscat in a new way!

Floating Wheelchairs
Oman Sail has recently received 5 floating beach wheelchairs from Oman Tourism Development Company (OMRAN) under a Social Investment Initiative, which are currently being piloted.
If you would like to use and enjoy at the Barcelo Resort Muscat private beach, please contact Fatima Al Zadjali by email fatma@omansail.com or WhatsApp on +968 9788 4012.

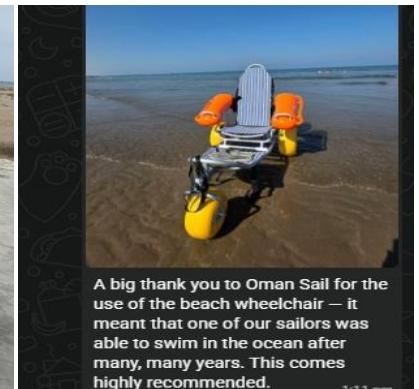

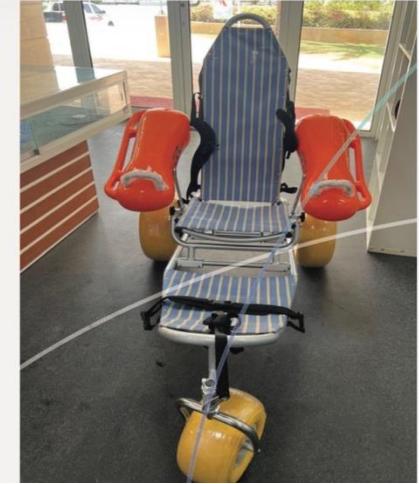

In your message, please include:

- Your full name
- Number of floating wheelchairs required
- Preferred date and time of day (we suggest allowing at least 30 minutes to enjoy the experience).

Friends and family are welcome to join.

Please note that floating wheelchairs:

- must be guided into and out of the water by Oman Sail staff and cannot be self-propelled by the user on the beach.
- for health and safety reasons, two staff members must be present per floating wheelchair.
- we kindly request 24 hours' notice if you are interested in using the wheelchairs to coordinate staffing within the event delivery.

A big thank you to Oman Sail for the use of the beach wheelchair – it meant that one of our sailors was able to swim in the ocean after many, many years. This comes highly recommended.

- Feedback was overwhelmingly positive and Oman Sail will **embed floating wheelchairs as a legacy feature** at future events.

Thank You
